

which everybody seems to be the most concerned with, you have got to staff it and you have got to have the latest equipment. When you talk about health care, that is true in the animal industry too, expensive equipment, but probably the most important is the staffing, is the research and we have a great deal of that right now at the University and I have heard disquieting stories of the fact that they are underfunded, they are understaffed, they do not have the facilities or the equipment. CLERK: 20 ayes, 0 nays to cease debate, Mr. President.

SPEAKER NICHOL: Senator Lundy.
